

Azim Khamisa

*International Speaker ❖ Award-winning Author
Passionate Peace Activist ❖ Consultant*

Azim Khamisa is an inspiration. Hailed by dignitaries such as the Dalai Llama, Bill Clinton and Al Gore, Azim delivers his inspirational message to a world in desperate need of forgiveness, peace and hope. Following the murder of his only son Tariq in 1995 through a senseless, gang-related incident, Azim chose the path of forgiveness and compassion rather than revenge, and this amazing choice led to the establishment of the Tariq Khamisa Foundation (TKF) and the subsequent forgiveness movement which has reached millions.

Through the work of TKF, a half-million children have seen him speak in person, with another 20 million being touched by his message through video presentations. The public has also heard his uplifting message via print, audio, video and television.

A recipient of 63 prestigious regional, national and international awards, Azim's focus remains on his vision of a peaceful, non-violent world where adults and children alike make empowering choices. Highlighted on national media such as NBC's *Today Show* and *Nightly News* and *People Magazine*, Azim has authored three books including the award-winning *From Murder to Forgiveness* and the Random House book *The Secrets of the Bulletproof Spirit*, coauthored with Jillian Quinn.

WORKSHOPS

THE JOURNEY OF FORGIVENESS: DESTINATION PEACE

Many of us are either in resentment about what has happened to us, or in guilt about what we have done to another. This workshop will help you rid both resentment and guilt so you can live life at its zenith, and enjoy a healthier, more prosperous life – within your relationships, family and community. The workshop shows you how to heal broken relationships and bring a deeper, more intimate connection in existing relationships. It is about living life at a higher frequency – living life with happiness, meaning, and love.

Restorative Justice: A New Paradigm For Social Transformation

In this presentation, punitive justice gives way to "Restorative Justice," a pathway that converts criminals into productive citizens and allows for the restoration of individuals rather than their continued punishment. Azim's work in several federal prisons over the last 20-plus years has confirmed that we have amazing resources in our prisons and that transformed offenders can contribute to a better, less violent and more compassionate society. As an example Tony Hicks, 36, is 12 units away from his degree
